

REQUEST FOR DEFOLIATION FLY-OVER SURVEY

NOTE: *This request is to be used only when you know you have an area of defoliation. This area must be at least 10 acres in size and contain at least 50% defoliation. The DNR will not fly over a county unless they know they are mapping a known problem. Failure to abide by this note will reduce valuable flight time in areas with known gypsy moth defoliation problems.*

INSTRUCTIONS

1. Complete the background portion of the form.
2. Describe each site with known defoliation to the best of your ability. This should include some indication of boundaries, the acres involved, level of defoliation and any landmarks that you believe can be seen from the air.
3. Attach a county map with defoliated areas marked. Each area should be numbered so it is referenced to the site description.
4. Send Fly-Over Request and County Map to: Mike Philip, Invasive Species Program Manager
Michigan Department of Agriculture
Pesticide & Plant Pest Management Division
525 W. Allegan, Lansing, MI 48933

BACKGROUND INFORMATION

COUNTY _____

(County Coordinator's Name)

(_____) _____
Area Code (Telephone Number)

SITE SPECIFIC INFORMATION

Site #	Township	Section	Range	Approx. Acres	Est. % Defoliation	Nearest Major Landmark (major roads, streams, water towers, airstrips, etc.)
